Charleston County and the City of Charleston Promote Electric Lawn Equipment

On Saturday, April 30, Charleston County and the City of Charleston held a joint event at the Lowe's in West Ashley to educate residents about the benefits of electric lawn equipment. Interested residents also received a \$50 voucher to buy equipment that day. The event was a success with 31 vouchers claimed and additional residents thinking about transitioning equipment in the future. Residents were able to test the equipment before buying at the event.

Mobility Month

Did you know May is Mobility Month in Charleston? Check out a [list of events](#) by Charleston Moves.

Tip of the Month

Charleston County's printing reduction competition is underway! Need to share a printed document with a co-worker? Instead of copying the document, scan the document directly to your co-worker's email address.
